

LIABILITY INSURANCE AT A GLANCE

What is Public Liability Insurance?

If an accident or unforeseeable incident causes damage or injury to someone (other than your employees), you may be found legally liable to cover the costs.

Public liability insurance can help you to protect your insurance can help to protect your business from the financial risk of liability claims - giving you the certainty you need to trade with confidence.

Why should consider it?

While public and product liability insurance isn't mandatory, for most businesses, it is recommended for all companies. That's because the unpredictable nature of accidents makes them hard to prevent - and the costs of being sued can be extraordinarily high.

What is Product Liability Insurance?

No matter how stringent your company is, mistakes can happen. For example, you may design or sell a product that causes a customer harm. Even if you are not at fault, you could risk serious financial damage through legal and court costs if a customer decides to sue you. Product liability insurance is designed to help protect your business if you are sued because a product you sell, assemble or supply has caused harm to a person or property.
